Architect

Minimal ,Brutal & Dynamic

The comprehensive examination center in Qatif, is a strategic project consisting of four floors, the health center, the early detection center on tumors, and a group of specialized medical laboratories in addition to the administrative and educational department *Under development

H.T PROJECT

This project contain from 12 residential modern units, we make with three samples: the main and Bigger one in the corner (lot:802 sqm) , four big villas (lot:600 sqm) , and seven small villas (lot:450 sqm) location :eastern province-qatif total lots area (10 lots): 6400 sqm

B.H BUILDING

Three residential units inside this simple volume we used a concrete material for facades with big windows to decrease the roughness of the mass and to gain a different level of contrast between rough and fine, open and closed, glossy and matt

Location : azizzia - alkhobar

Lot Area:664 sqm

M.B HOUSE

Minimal design with contrast between
black & white .

tow buildings (4 Residential units)

Location : Qatif - Tarot

Lot area :664 sqm

Minimal design , U-shape plan
with swimming pool in the middle

LOCATION : Danat alrames- qatif
LOT AREA:425 sqm

three residential units , the first phase of project it will build just ground floor , thats why this elevation with out windows , i use the steel tubes just for make some eye movement

Z.K HOUSE

This modern house is my first project with
3d elevation , contain from
three floor and annex
